

An offshore oil rig is shown at sunset. The rig is a complex structure of steel beams, pipes, and cranes, supported by a lattice of legs in the water. A large red crane is prominent on the right side. The sky is a mix of blue and orange, with a bright sun on the right. In the background, there are mountains. The overall scene is industrial and scenic.

PRODUCTION INDUSTRIES

SPI - SHALABY

About Our Company

SPI – Shalaby Production Industry SPI is one of the leading companies in Africa and the Middle East specializing in industrial cooling solutions and sealing systems, with proven expertise dating back to 1990.

At SPI, we deliver comprehensive industrial solutions covering Heat Exchangers, thermal transfer and cooling systems, as well as Mechanical Seals, Gland Packing, Rotary Joints, and complete sealing system solutions, including spare parts, maintenance services, and technical support.

Our strength lies in our deep technical understanding of industrial applications and operating conditions, enabling us to provide reliable, efficient, and customized solutions for industries such as Energy, Chemicals, Heavy Industries, Food & Beverage, Pharmaceuticals, and Utility Plants.

SPI is committed to supporting the industrial sector with end-to-end engineering solutions, combining high-quality products, expert services, and decades of hands-on experience in industrial cooling and sealing technologies.

Vision & mission

Vision

To be a regional industry leader and trusted reference in industrial cooling and sealing solutions across Africa and the Middle East, setting benchmarks in engineering quality, operational reliability, and long-term industrial performance.

Mission

To design, deliver, and support high-performance industrial cooling and sealing solutions through deep engineering expertise, rigorous technical standards, and a clear understanding of complex industrial operating conditions.

SPI is committed to providing dependable products, precision-engineered systems, and professional technical services that enhance efficiency, reduce operational risk, and ensure uninterrupted industrial operations.

SPI - SHALABY

OUR VALUES

- Engineering Excellence
- Operational Reliability
- Technical Integrity
- Client Commitment
- Sustainable Performance
- Continuous Advancement

SPI - SHALABY

Innovative Solutions

SPI delivers advanced industrial cooling and sealing solutions engineered to meet complex operating conditions. Our approach combines deep technical expertise, application-driven design, and proven technologies to provide efficient, reliable, and customized solutions that support critical industrial operations and long-term performance.

1 Innovative Engineering

2 Technical Expertise

3 Application-Driven Design

4 Proven Reliability

5 Long-Term Performance

Quality Unsurpassed

Quality is the foundation of everything we do. SPI adheres to strict engineering standards and delivers products and services designed for durability, safety, and operational continuity. Our solutions are trusted by industrial clients to perform consistently in demanding environments with minimal downtime and maximum efficiency.

Our products

SPI – Shalaby Production Industry provides high-performance engineering solutions tailored for demanding industrial environments. Our comprehensive range includes high-efficiency Plate Heat Exchangers, precision-engineered Mechanical Seals, durable Gland Packing, and reliable Rotary Joints. By combining advanced technology with deep technical expertise, we deliver customized, leak-free, and energy-efficient systems that ensure the long-term operational success of critical infrastructure across various industrial sectors.

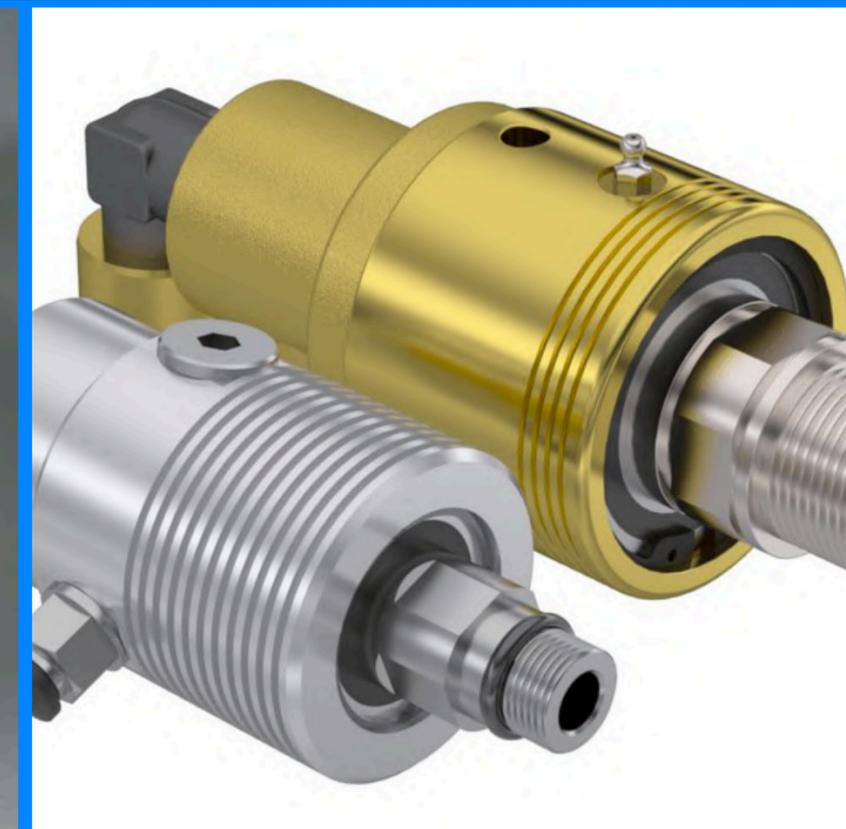

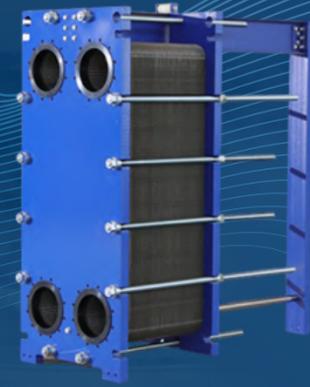

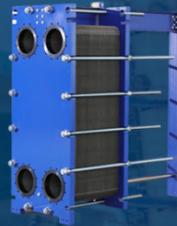

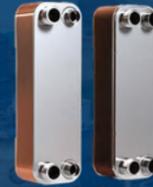

PLate heat exchanger

01. Gasketed Plate Heat Exchanger

02. Brazed Plate Heat Exchanger

03. Multi-section Plate Heat Exchanger

04. Free-flow Plate Heat Exchanger

05. Welded Plate Heat Exchanger

06. Plate & Shell Heat Exchanger

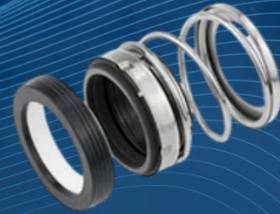

07. Plate Type Condenser

08. Plate Type Evaporator

Mechanical Seals

01. O-ring Pusher Mechanical Seals

02. Multiple Spring Mechanical Seals

03. Wave Spring Mechanical Seals

04. Cartridge Mechanical seal

05. Metal Bellows Mechanical Seals

06. Agitator Mechanical Seal

07. Elastomer Bellows Mechanical Seal

08. Brand Pump Seals - General Industrial

Gland Packing

01. PAN Fibre Gland Packing

02. Glass Fibre Gland Packing

03. Kevlar Aramid Gland Packing

04. Aramid Gland Packing

05. PTFE Gland Packing

06. PTFE Graphite Gland Packing

07. Carbon Graphite Gland Packing

08. Expanded Graphite Gland Packing

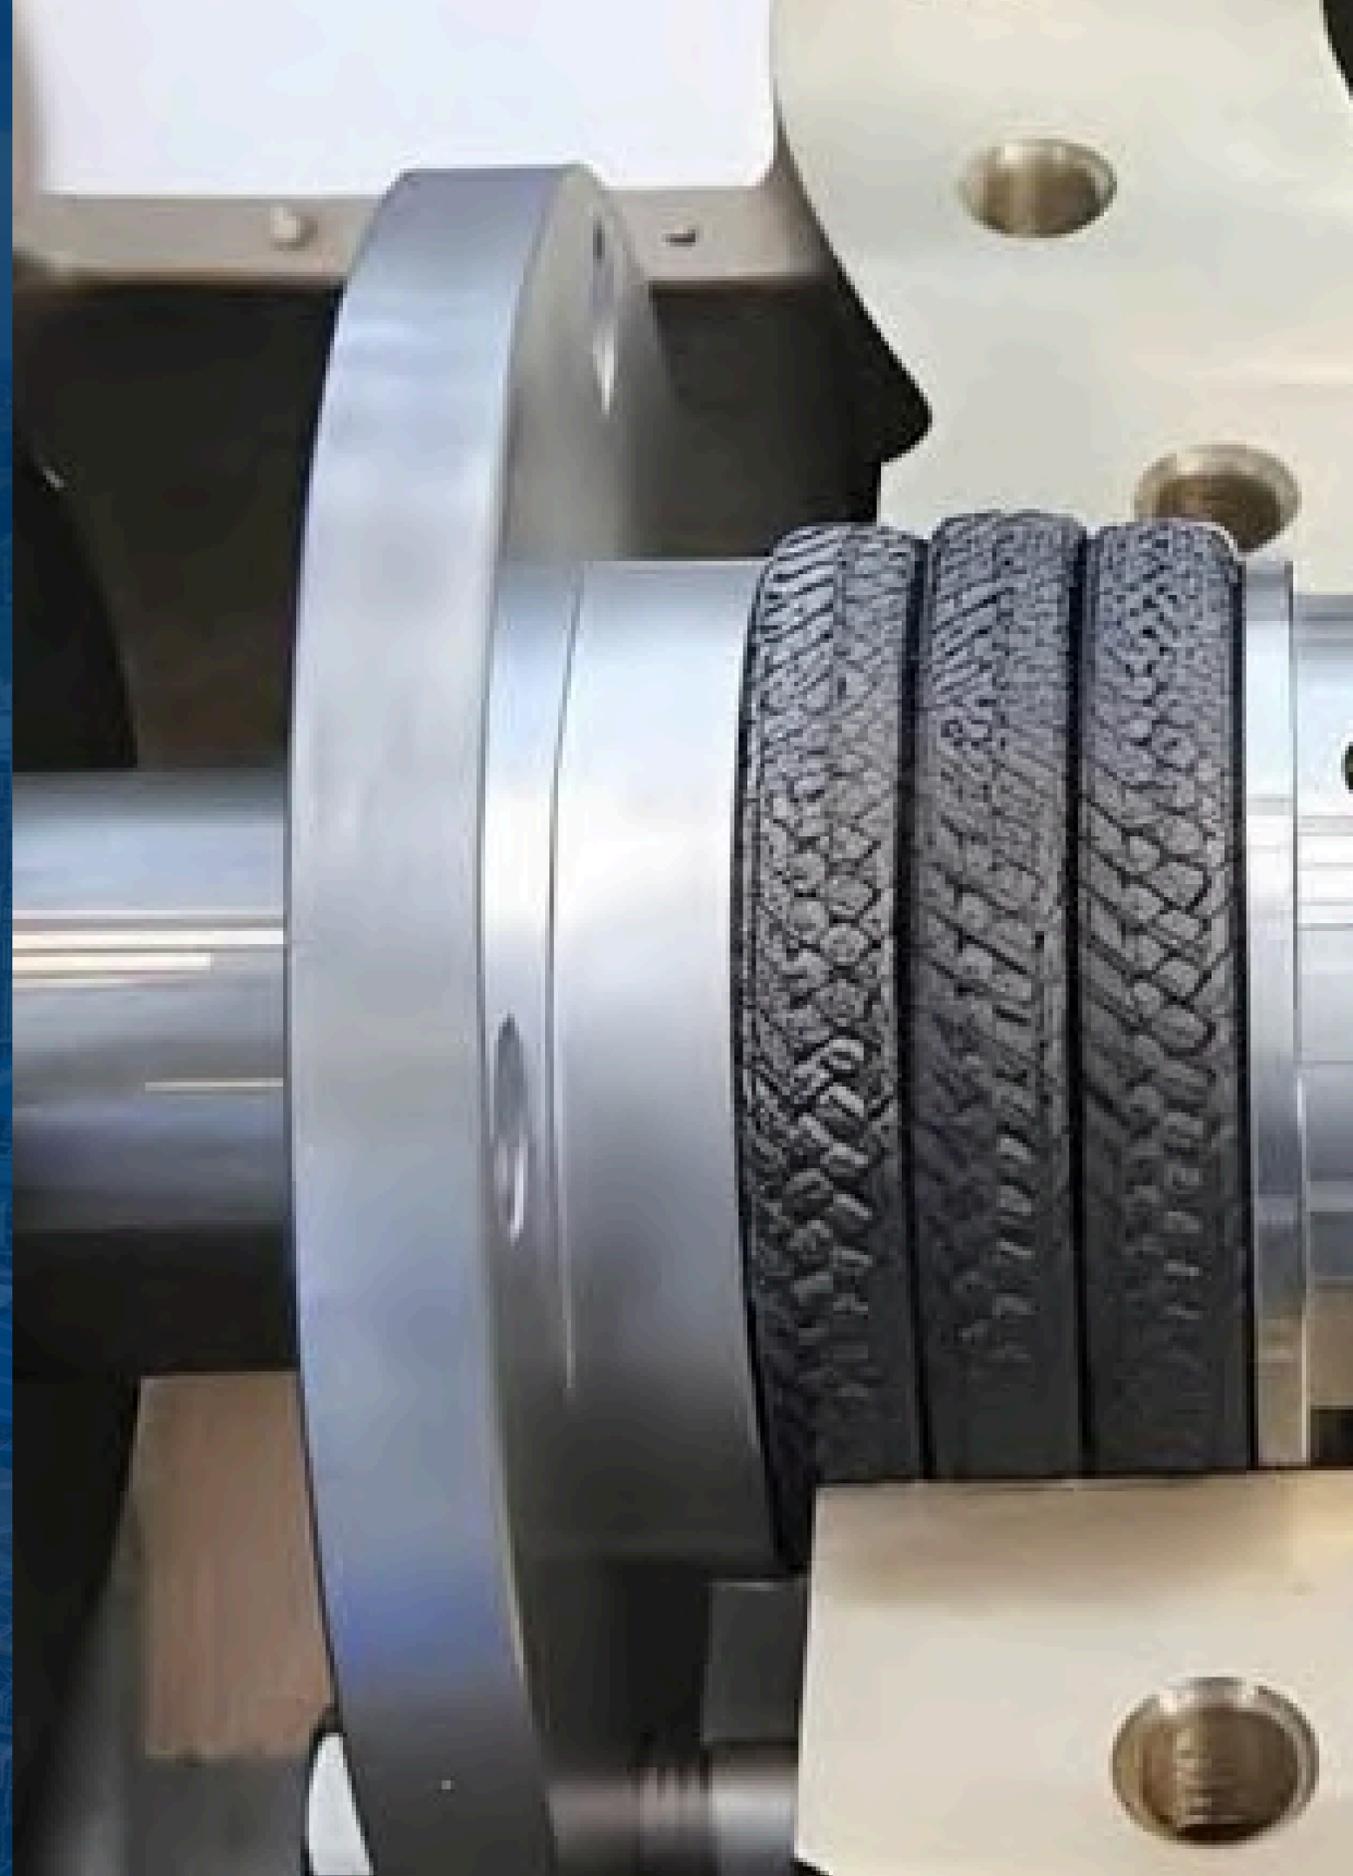

09. Natural Fibre Gland Packing

10. Preformed Gland Packing Rings

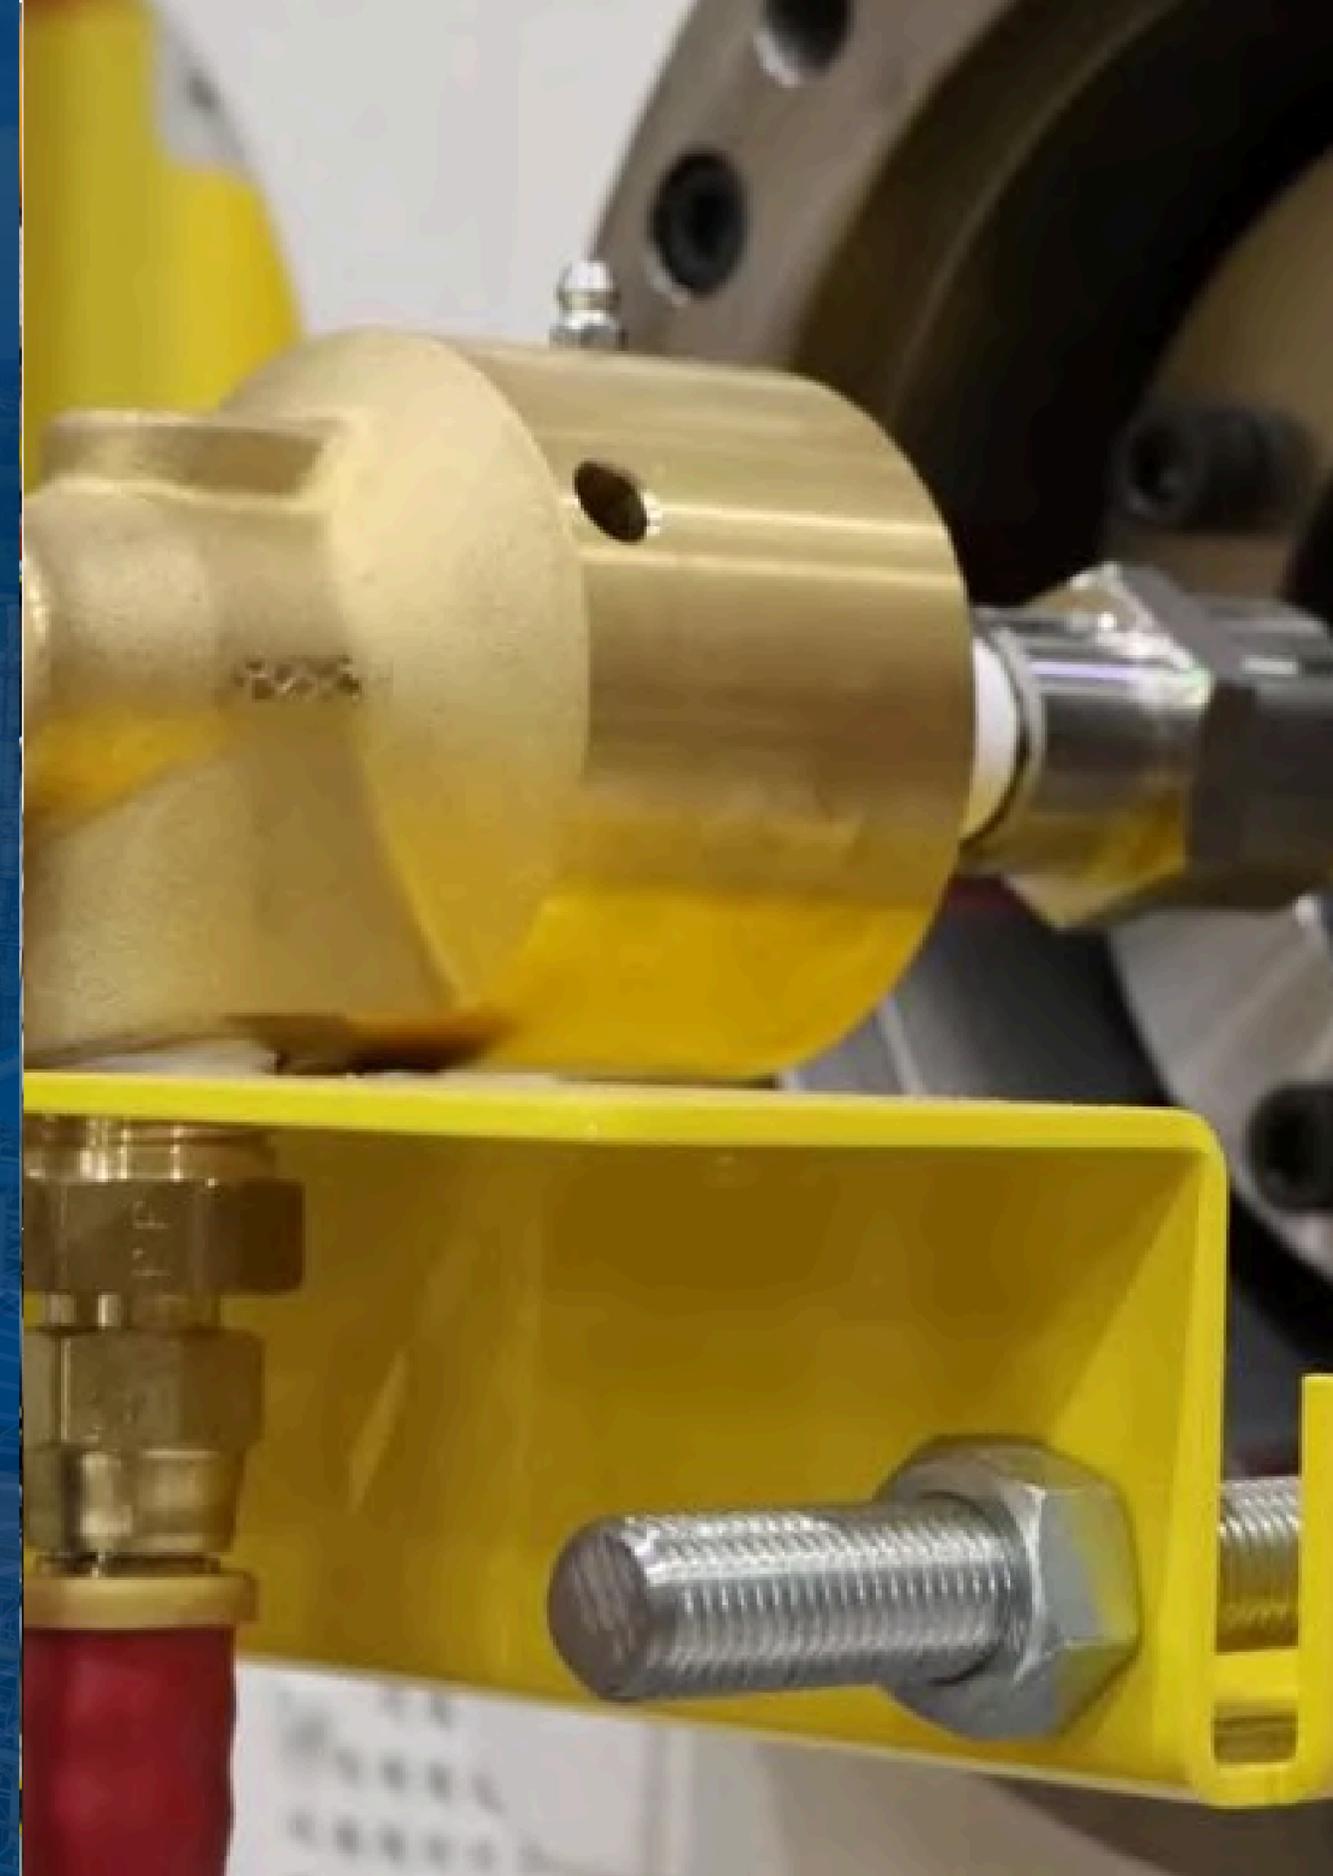

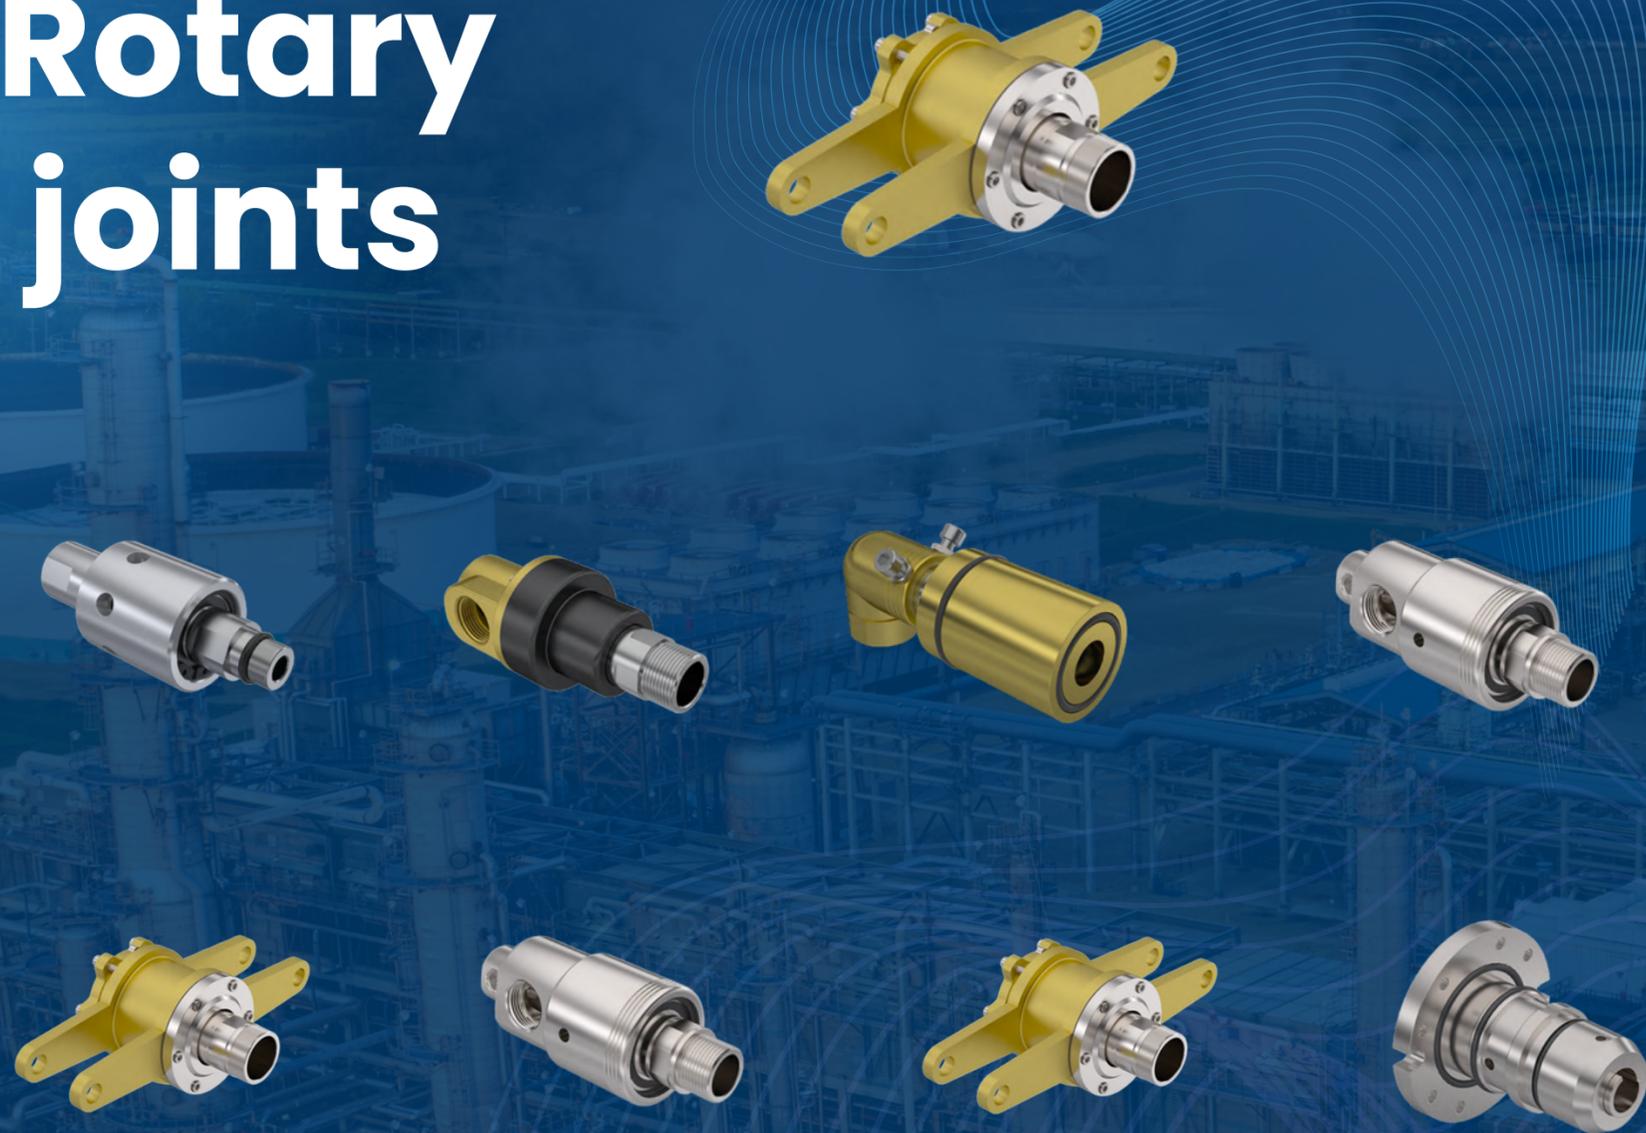

11. Gland Packing Extractors

SPI - SHALABY

Rotary joints

Recommended application of spi products

For almost all processing applications concerning the heating and cooling, evaporating and condensing duties. SPI Plate Heat Exchanger makes the custom design solution for various types of heat exchangers and fluid handling equipment, such as gaskets, welded and brazed plate heat exchangers, helping industrial users to achieve better heat transfer and energy saving.

PLATE HEAT EXCHANGER FOR FUEL CELL

PLATE HEAT EXCHANGER FOR LNG

SPI - SHALABY

Our Clients Fields

Oil & Gas	Refineries, petroleum stations, pipelines, and auxiliary units.
Power Generation	Power plants, turbines, cooling and heating systems.
Water & Wastewater	Drinking water plants, wastewater treatment, .
Chemical & Petrochemical	Chemical plants, solvents, acids
Pharmaceutical	Pharmaceutical manufacturing and thermal systems.
Food & Beverage	Food processing plants, juices, dairy, oils, and production lines.
Marine & Offshore	Vessels, offshore platforms, and seawater cooling systems.
HVAC & District Cooling	Central air conditioning, district cooling, and industrial buildings.
Steel & Metal Industries	Steel mills, rolling lines, furnaces, and heavy industrial operations.
Cement & Fertilizers	Cement factories, fertilizer plants, and associated industrial operations.
Pulp & Paper	Paper mills, steam systems, and drying processes.
Sugar	Sugar factories
